

Dear FCC:

I am writing to you on behalf of XM Satellite Radio as a subscriber. In my opinion, it is unfair for the NAB to dictate what radio I can and cannot listen to. I have enjoyed XM radio for some time now and feel that if you allow this action to be passed - that you are make a critical mistake. As XM Radio subscribers - we all pay for the convenience and enjoyment of commercial free, digital, and quality radio. I pay for it - therefore I should be able to get the best quality radio.
